

General Assembly

Raised Bill No. 6617

January Session, 2009

LCO No. 3950

*03950

Referred to Committee on Public Health

Introduced by: (PH)

AN ACT CONCERNING WATER SUPPLY PLANS.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

- 1 Section 1. Section 25-32d of the general statutes is repealed and the 2 following is substituted in lieu thereof (*Effective October 1, 2009*):
- 3 (a) Each water company, as defined in section 25-32a, and supplying 4 water to one thousand or more persons or two hundred fifty or more 5 consumers and any other water company as defined in said section 6 requested by the Commissioner of Public Health shall submit a water 7 supply plan to the Commissioner of Public Health for approval with 8 the concurrence of the Commissioner of Environmental Protection, 9 provided concurrent approval from the Commissioner of 10 Environmental Protection shall only be required on issues that are not 11 otherwise subject to separate approval by the Commissioner of Environmental Protection. The Commissioner of Environmental
- 12
- 13 Protection may provide comments on any or all aspects of a plan
- 14 submitted pursuant to this subsection. The concurrence of the Public
- 15 Utilities Control Authority shall be required for approval of a plan
- 16 submitted by a water company regulated by the authority. The

17 Commissioner of Public Health shall consider the comments of the 18 Public Utilities Control Authority on any plan which may impact any 19 water company regulated by the authority. The Commissioner of 20 Public Health shall distribute a copy of the plan to the Commissioner 21 of Environmental Protection and the Public Utilities Control Authority. 22 A copy of the plan shall be sent to the Secretary of the Office of Policy 23 and Management for information and comment. A plan shall be 24 revised in whole or in part at such time as the water company filing 25 the plan [or the Commissioner of Public Health] determines, [or] 26 provided any such revisions are filed at intervals of not [less than three 27 years nor] more than [five] ten years after the date of [initial approval] 28 the last plan submittal. The Commissioner of Public Health may 29 require revisions to any plan, as deemed necessary by the 30 commissioner, when any company required to file a plan has failed to 31 meet public water supply obligations prescribed under state law or 32 regulation.

(b) Any water supply plan submitted pursuant to this section shall evaluate the water supply needs in the service area of the water company submitting the plan and propose a strategy to meet such needs. The plan shall include: (1) A description of existing water supply systems; (2) an analysis of future water supply demands; (3) an assessment of alternative water supply sources which may include sources receiving sewage and sources located on state land; (4) contingency procedures for public drinking water supply emergencies, including emergencies concerning the contamination of water, the failure of a water supply system or the shortage of water; (5) a recommendation for new water system development; (6) a forecast of any future land sales, an identification which includes the acreage and location of any land proposed to be sold, sources of public water supply to be abandoned and any land owned by the company which it has designated, or plans to designate, as class III land; (7) provisions for strategic groundwater monitoring; (8) an analysis of the impact of water conservation practices and a strategy for implementing supply and demand management measures; [and] (9) on and after January 1,

51 2004, an evaluation of source water protection measures for all sources 52 of the water supply, based on the identification of critical lands to be 53 protected and incompatible land use activities with the potential to 54 contaminate a public drinking water source; and (10) a brief summary 55 of the water company's underground infrastructure replacement 56 practices, including current and future infrastructure needs, methods 57 by which projects for rehabilitation and replacement are indentified 58 and prioritized and funding needs.

- (c) For security and safety reasons, procedures for sabotage prevention and response shall be provided separately from the water supply plan as a confidential document to the Department of Public Health. Such procedures shall not be subject to disclosure under the Freedom of Information Act, as defined in section 1-200. Additionally, procedures for sabotage prevention and response that are established by municipally-owned water companies shall not be subject to disclosure under the Freedom of Information Act, as defined in section 1-200.
- (d) The Commissioner of Public Health, in consultation with the Commissioner of Environmental Protection and the Public Utilities Control Authority, shall adopt regulations in accordance with the provisions of chapter 54. Such regulations shall include a method for calculating safe yield, the contents of emergency contingency plans and water conservation plans, the contents of an evaluation of source water protection measures, a process for approval, modification or rejection of plans submitted pursuant to this section, a schedule for submission of the plans and a mechanism for determining the completeness of the plan. The plan shall be deemed complete if the commissioner does not request additional information within ninety days after the date on which the plan was submitted or, in the event that additional information has been requested, within forty-five days after the submission of such information, except that the commissioner may request an additional thirty days beyond the time in which the application is deemed complete to further determine completeness. determining whether the water supply plan is complete, the commissioner may request only information that is specifically required by regulation. The Department of Environmental Protection and the Department of Public Utility Control, in the case of any plan which may impact any water company regulated by that agency, shall have ninety days upon notice that a plan is deemed complete to comment on the plan.

(e) Any water company, when submitting any plan or revision or amendment of a plan after July 1, 1998, which involves a forecast of land sales, abandonment of any water supply source, sale of any lands, or land reclassification, shall provide notice, return receipt requested, to the chief elected official of each municipality in which the land or source is located, the Nature Conservancy, the Trust for Public Land and the Land Trust Service Bureau and any organization on the list prepared under subsection (b) of section 16-50c. Such notice shall specify any proposed abandonment of a source of water supply, any proposed changes to land sales forecasts or any land to be designated as class III land in such plan. Such notice shall specify the location and acreage proposed for sale or reclassification as class III land and identify sources to be abandoned and shall be provided no later than the date of submission of such plan or revision. Such notice shall indicate that public comment on such plan or revision shall be received by the Commissioners of Public Health and Environmental Protection not later than sixty days after the date of notice. The Commissioner of Public Health shall take such comment into consideration in making any determination or approval under this section.

This act shall take effect as follows and shall amend the following sections:		
Section 1	October 1, 2009	25-32d

Statement of Purpose:

To revise the requirements governing the submission of water supply plans by water companies.
